PRESIDENT'S GREETING

Dear Colleagues,

Hello Philly Ortho members! We on the Board hope this letter finds you all well and enjoying the beginning of the holiday season. Indeed we all have much to be thankful for. Sincere thanks to Dr. Jean-Claude D'Alleyrand for his lecture last month. We were most fortunate to have the Lieutenant Colonel with us on Veterans Day as we honored those who have served our country, and his presentation about blast injuries was truly one of the most captivating talks I have ever seen. It was simply humbling to listen to one of our colleagues as he discussed his experiences delivering emergent and expert care to our nation's heroes, and the impact of his words cannot be overstated.

Our last program of 2024 honors two absolute legends in orthopaedics. Drs. Marvin Steinberg and Paul Lotke, pioneers in our field, who have contributed in countless ways, as clinicians, researchers, mentors, and leaders, locally, nationally, and internationally. Their contributions and accomplishments are simply too numerous to cite in this short letter, but rest assured they both stand as shining examples of excellence, and we are lucky to have the opportunity to follow in their footsteps. Fittingly, our presentation will be given by Dr. James Carey, Professor of Orthopaedic Surgery at the University of Pennsylvania, Program Director of Penn's Sports Medicine fellowship, and team physician for both the University of Pennsylvania's men's basketball team and our own Philadelphia Flyers. As Drs. Steinberg and Lotke before him, Dr. Carey is a true clinician-scientist, mentor, and leader in his field who will be speaking about cartilage repair and its impact on blunting the progression of arthritis. We welcome Dr. Carey and look forward to his presentation!

This month's program will take place on Monday, December 9th, once again at our new venue. Please join us at The Pyramid Club, on the 52nd floor at 1735 Market Street, with the buffet beginning at 6pm and the presentation to start at 7pm. Remember that parking vouchers will continue to be available for purchase at a significant discount for all those choosing to park in the Sonesta Hotel lot. Though attendance has been wonderful thus far, we hope to continue to increase the number of attendees, so please make every effort to come and enjoy a beautiful venue, great food, and even better company.

Thanks once again to all our members and sponsors. It is because of you that we are able to carry on this great tradition and maintain such a wonderful and vibrant orthopaedic community. See you all on the 9th!

Warmest Regards,

Eric Levicoff, MD
President

PROGRAM CHAIR'S REPORT

Our speaker this month will be Dr. James Carey from the University of Pennsylvania where he currently serves as the Director of the Penn Center for Advanced Cartilage Repair and Osteochondritis Dissecans Treatment as well as program director for the sports medicine fellowship. He is a nationally recognized expert in cartilage repair which is his primary area of interest and research. The Penn Cartilage Center is one of the highest volume cartilage repair and meniscus transplantation centers in the world.

We are very much looking forward to welcoming Dr. Carey this month to speak about a topic that is relevant to almost every orthopaedic surgeon's practice in some way or another, "Can Cartilage Repair Minimize Risk of Progression to Knee Arthroplasty?".

Michael Messina, MD

NOVEMBER MEETING

Twenty-Second Annual Steinberg-Lotke Lecture

Monday, December 9, 2024

6:00 p.m. Buffet • 7:00 p.m. Program

*Can Cartilage Repair Minimize Risk of
Progression to Knee Arthroplasty?*

James L. Carey, M.D., M.P.H.

Price: \$65 for Members and Emeritus Members • \$90 for Non-members

Please register online at www.phillyortho.org

— Residents may register through their Program Coordinators —

REGISTRATION DEADLINE MONDAY, DECEMBER 2, 2024

2024-2025 MEETING SCHEDULE

December 9, 2024

Twenty-Second Annual Steinberg-Lotke Lecture

Can Cartilage Repair Minimize Risk of Progression to Knee Arthroplasty?

James L. Carey, MD, MPH

January 2025 (No Program)

February 10, 2025

Twelfth Annual Richard H. Rothman Lecture

Twenty Years as an Orthopaedic Residency Director, Lessons Learned

James Purtill, MD

March 2025 (No Program)

April 14, 2025
